

K-Love radio keeps me on the right track during the day, with it's positive uplifting comm. free music. I think alot of people in my community listen and would miss the praise music missing in the other radio station in our area. Many people are reached in remote areas that would listen to radion but never go to church will and have been helped by this station and thier staff. They are available for pray also and people know they can depend on them. They are more than just another music station. They are out to help people in time of need. Real live Godly people helping real live people out there.

I would like to see K-Love stay in our area because I think there is a real need for it. It is neat to hear about people in all parts of the country too. They are effective, just listen and you will know.

Thank you and I hope you do not consider giving LPFM priority over a great radio station like K-LOVE!!!
